Summary of Significant Financial Policies

The City of Arcadia, Florida (The City) is a municipal corporation organized under Florida Statutes. The City was originally incorporated in 1886. The City operates under Elected Officials (The City Council) the City provides services including public safety, sanitation, general government, water, planning and zoning. The City Council is responsible for legislative and fiscal control for the City.

This section describes the major financial policies that affect the City's long term financial planning and budgeting process. The processes are affected by these policies in varying ways. The annual budget is prepared as a balanced budget, total revenues and other financing sources equal total expenditures and other financing uses for each fund, these policies serve to match fluctuating spending needs with available resources. Some years the use of the fund balance is needed to balance a fund's budget, thereby making a fund balance reserve policy an important planning and budget tool. Large scale capital project spending needs and fluctuating interest rates make debt management and important financial policy issue. Investing the City's funds so that the fund's values keep pace with rising costs is constantly important.

Purchase Policy

The following are informal guidelines that are used for purchasing.

- Any purchase over \$ 2,500 requires a Purchase Order (PO)
- Each Purchase Order (PO) must have three written quotes from a vendor
- All PO must be approved by City Administrator and Finance Director
- Over \$15,000 must go through a formal bid or RFP procedure with City Council approval.

Fund Balance/Retained Earnings Reserves

General Fund - In the General Fund, there shall be created and maintained an Unreserved Undesignated Fund Balance equivalent to a minimum of twenty (20%) percent of the current fiscal year expenditures budgeted for the fund, less capital outlay and/or extraordinary expenditures. For the purposes of this calculation, the expenditures shall be the budget as originally adopted by ordinance in September for the subsequent fiscal year. This reserve shall be in addition to all other required reserves or designation of fund balance.

1. **General Fund Sinking Fund** - In order to provide liquidity adequate to address unexpected revenue reductions or unanticipated expenditures, the General Fund will be managed in such a way as to maintain a General Fund Sinking Fund established for the purpose of maintaining the Unreserved Undesignated Fund Balance as described above.

Enterprise Fund - The City has created an Enterprise Fund which accounts for activities for which a fee is charged to external users for goods and services. The following utility services are found within the City's Enterprise Fund: sanitation, water and wastewater treatment. In the Enterprise Fund, there shall be created and maintained an Unreserved Undesignated retained earning equivalent to a minimum of twenty (20) % percent of the current fiscal year expenditures budgeted for the fund, less capital outlay and/ or extraordinary expenditures. For the purposes of this calculation, the expenditures shall be the budget as originally adopted by ordinance in September for the subsequent fiscal year. This reserve shall be in addition to all other reservations of retained earnings, including but not limited to amounts reserved for debt service and/or amounts reserved for renewal and replacement of long lived assets.

2. Enterprise Fund Sinking Fund - In order to provide liquidity adequate to address unexpected revenue reductions or unanticipated expenditures, the Enterprises Fund will be managed in such a way as to maintain an Enterprise Fund Sinking Fund established for the purpose of maintaining the Unreserved Undesignated retained earnings as described above.

Replenishment of Reserve Deficits

If, at the end of any fiscal year, the actual amount of unreserved, undesignated fund balance, or unreserved retained earnings held within each of the sinking funds fall below the required levels set forth herein. The City Administrator shall prepare and submit a plan for expenditure reduction and/or revenue increases to the City Council. As a part of the annual budget review, the City Council shall review and amend the plan submitted by the City Administrator for restoring these amounts.

Debt Management Policy

There is currently no debt management policy in place. There is no state statute or ordinance placing limitations on municipal debt. The city only issues debt in cases where it is a practical method for financing large capital projects. There are currently no debt limits. The policy of pay as you go is utilized in most cases. Debt will not be issued to cover operating expenditures. Each case for borrowing funds is evaluated separately. The guidance of the City's Attorney and Auditor are also engaged. The City Council must approve all issuances of debt. Besides funding new projects, refunding of existing debt is also examined when warranted.

Vision/Mission Statement

There is currently not one in place.
