R# _____

File No. : **18** - _____ **ZU**

The City administers single- and two-family construction certificates along with secondary site plan improvements which require BOTH a zoning and a system design confirmation through a consolidated Zoning and Utility Clearance Certificates. This eliminates the need to complete two separate applications. The consolidated review process ensures that local zoning district regulations and utility system design standards have been met as prerequisite to the unified City-County building permit review. After City approval of the Zoning and Utility Clearance Certificate Application, a copy of the approved plans and specifications must be included as part of your Desoto County Building Permit Application.
